

Machine Learning Worksheet Assignment 4

Batch No : DSNB1022

Name: Yetunde Doyinsola Olusegun-Olaoke

1. A
2. A
3. B
4. B
5. C
6. B
7. D
8. Resampling (Oversampling and Undersampling)
9. A
10. B
11. A
12. D
13. Regularization refers to techniques that are used to calibrate machine learning models to minimize the adjusted loss function and prevent overfitting or underfitting.
14. * Ridge Regression (L2 Norm)
 - * Lasso (L1 Norm)
 - * Dropout
15. The error present in the linear regression equation represents the difference between the expected price at a particular time and the price that was observed.
